

INCIDENT MANAGEMENT SITUATION REPORT

TUESDAY, JUNE 30, 1998 - 0530 MDT

NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

Initial attack and large fire activity escalated in the Southwest and Rocky Mountain Areas. Large fire activity persisted in Florida. Increased initial attack fire activity was reported in eastern Texas. The National Interagency Coordination Center processed orders for a Type II Incident Management Team, equipment, aircraft, crews, smokejumpers and miscellaneous overhead for these Areas. Fire activity was minimal in most other Areas. Very high and extreme fire indices were reported in Florida, Georgia, Texas, New Mexico, Arizona, Colorado, Utah, California and Nevada.

SOUTHERN AREA LARGE FIRES:

BUNNELL-VOLUSIA COMPLEX, Florida State, Volusia County. A Type II Incident Management Team (Kearney) is assigned. Active fire behavior was observed on the fires throughout the afternoon. A new fire that began in Brevard County burned into Volusia County and destroyed one home. Several roads are closed due to smoke and fog.

BUNNELL COMPLEX, Florida State, Flagler and St. Johns Counties. A Type II Incident Management Team (Hendricks) is assigned. These fires are on the north side of Highway 40. No new information was provided.

ORLANDO COMPLEX, Florida State, Brevard, Orange, Osceola and Seminole Counties. A Type I Incident Management Team (Birch) is assigned. Air operations were grounded due to poor visibility. The Break fire increased from 3,000 acres to 10,000 acres. Some evacuations occurred. The total acreage involved in this complex is undetermined.

WITHLACOOCHEE, Florida State, Hernando, Pasco, Lake Sumter and Citrus Counties. A Type II Incident Management Team (Votolina) is assigned. Seven new fires were added to this complex.

OAK HEAD COMPLEX, Osceola National Forest. A Type I Incident Management Team (Greenhoe) is assigned. These fires are 20 miles north of Lake City. Mop-up

operations are in progress. Afternoon thunderstorms and extremely dry fuels are causing control problems. Demobilization of some resources has begun.

PERRY COMPLEX, Florida State, Taylor, Dixie, Lafayette and Madison Counties. A Type II Incident Management Team (Pearson) is assigned. Firefighters made good progress toward containment goals. Dry conditions continue to cause control problems. The current concern is for a pine plantation in the area.

MERRITT ISLAND COMPLEX, Merritt Island NWR. This fire is in Brevard County. Firefighters are making good progress on mop-up. Some flare-ups occurred inside the fire perimeter. Firefighters were able to hold containment lines. Extreme temperatures have hindered containment objectives. Current threats are to NASA and private structures.

CASH JOHNSON, Texas State, Potter County. This fire is burning onto Alibates Flint Quarries National Monument. Oil tanks in the vicinity have caused concern.

SOUTHWEST AREA LARGE FIRES:

OSO, Santa Fe NF. A Type I Incident Management Team (Bateman) is assigned. This fire is 10 miles north of Los Alamos. The fire has burned into the Santa Clara drainage. Steep terrain, inaccessibility and heavy fuels are contributing to control problems.

PALA DURO, Lake Meredith NRA. This fire is outside of Fritch. Active fire behavior was observed. The fire jumped several roads and made a significant run. Eight-five percent of the Alibates Flint Quarries have burned.

ROCKY MOUNTAIN LARGE FIRES:

MUDDY CREEK, Pike-San Isabel NF. A Type II Incident Management Team (Hart) has been ordered. This fire is burning in Douglas Fir, White Fir and Ponderosa Pine stands 25 miles west of Rye. Camp Jackson, a YMCA camp, is currently threatened. Engine crews are concentrating on providing a safe anchor point and structure protection for the camp. Steep, rugged terrain is hampering suppression efforts.

BEAR TRACK, Arapaho-Roosevelt NF. A Type II Incident Management Team (Sexton) is assigned. This fire is burning in bug infested timber 10 miles west of Evergreen. Fire activity decreased slightly yesterday, although spotting was observed nearly 1/3 mile from the head. Summer cabins are threatened. Steep terrain and extreme weather conditions are hampering containment objectives.

WHITE, Pike-San Isabel NF. A Type II Incident Management Team has been ordered. This fire is burning in Spruce and Lodgepole pine three miles northwest of Grants. Numerous spot fires created control problems throughout the afternoon, but firefighters made good progress on them last evening. Crews conducted burnout operations from Callahan Gulch to the main fire.

EASTERN GREAT BASIN LARGE FIRES:

BULLDOG, Cedar City District, BLM. This fire is 25 miles southwest of St. George. Firefighters made good progress cold trailing and mopping-up. Flare-ups and slopovers caused problems on one division. Aerial resources assisted with hot spots. Crews conducted a burnout to keep the fire out of the Apex Mine. Current threats are to a repeater, mine and wildlife habitat.

OUTLOOK:

A FIRE WEATHER WATCH IS POSTED IN NORTHERN FLORIDA FOR LOW HUMIDITY. Florida and Georgia will be hot with scattered thunderstorms. Northern Florida will have low relative humidity. High temperatures will be in the 90's to near 100.

Southern Nevada, Utah, Colorado, Arizona, New Mexico, and northwest Texas will be sunny and hot with low relative humidity. Isolated thunderstorms are forecast for western Texas, eastern Colorado and eastern New Mexico. Winds will be at 10-20 MPH throughout the area. Temperatures will range from the 80's in the mountains to 115 in the lower elevations.
